**HOUSTON, TX – April 24, 2025** – The [Buffalo Soldiers National Museum \(BSNM\)](#) proudly announces Juneteenth @160: U.S. Colored Troops' Call to Freedom | Our Journey to Progress, a dynamic three-day community celebration honoring the 160th anniversary of Juneteenth and the enduring legacy of the United States Colored Troops (USCT) and how they influenced the Buffalo Soldiers. Held from June 19–21, 2025, Juneteenth @160 offers a unique blend of art, history, education, and cultural experience, rooted in themes of resilience, resistance, and the continuing journey toward Black liberation in America.

“Juneteenth @160 is a cultural reckoning and a tribute to the generations of Black soldiers who fought to become citizens under the protection of the US Constitution. These were formerly enslaved individuals who have fought for freedom, self-determination, and dignity as human beings,” said Desmond Bertrand-Pitts, CEO of BSNM. “We are honored to create a space for learning, reflection, and belonging.”

The USCT played a vital role for freedmen and the formerly enslaved to assert their rights as full American citizens and the realization of Juneteenth. Comprising over 180,000 Black soldiers, the USCT fought for the Union during the Civil War and was instrumental in occupying Confederate territories to enforce the Emancipation Proclamation. In Texas, where emancipation was not yet enforced, USCT regiments arrived in

Texas and helped assert federal authority and ensure freedmen could not be put back into bondage after June 19, 1865.

“The USCT laid the foundation for the inclusion of Black soldiers in the Regular Army which would later be known as the Buffalo Soldiers,” said Bertrand-Pitts.

After the Civil War, a selection of USCT veterans transitioned into service with the newly formed Regular Army regiments—the 9th and 10th Cavalry and the 38th, 39th, 40th and 41st Infantry Regiment, established in 1866. These veterans brought with them battlefield experience, discipline, and leadership skills developed during their service in the war. Their combat-tested courage and military knowledge shaped the critical role that Buffalo Soldiers would undertake in the American Western Frontier.

More importantly, the USCT's performance during the Civil War challenged the belief that Black men were unfit for military service. As BSNM honors their stories and influence, Juneteenth @160 will feature:
